

WE CARE ABOUT YOU

COVID-19 Update

We continue to offer our guests a tranquil and safe place to escape to while following advice from health authorities

Dear guest

We would like you to feel safe during your stay. To ensure this we have implemented a new **In-room Heat 'n' Eat Dining** menu available daily **from 2.00 pm – 7.00 pm.**

- I. Ring reception to place your order.
- II. Food and beverages delivered to your room.
- III. Heat 'n' Eat dinners come with instructions, cutlery and crockery.

A list of available alcoholic and non-alcoholic beverages to accompany your meal can be found in the folder in your room.

Kind regards

Dianne & Nick Walford

In-room Dining menu

In-room Heat 'n' Eat Meals Reheating Instructions

You can defrost our **Heat 'n' Eat meals** in the fridge overnight or use the 'defrost' setting on your microwave. You can also simply reheat our meals from frozen.

1. Place meal or soup in the fridge and vegetables in freezer until ready to reheat
2. Remove meal from fridge and **lift lid on one corner before microwaving**. If you don't the lid will pop off and warp during reheating
3. Remove vegetables from freezer – **DO NOT** pierce or open bag. Place printed side up in microwave
4. Place plastic container on a plate or in a bowl if soup. This is to make it easier and safer to remove from microwave
5. Cook both main meal and vegetables for **5 minutes**
6. Remove vegetables as they will be done, let stand a minute or two then use tear notch to open
7. Stir main meal or soup and **cook a further 3-5 minutes** depending on how hot you want it
8. Carefully remove the plate using a hand towel
9. Let meal or soup stand for 2-5 minutes
10. Once cool enough to handle carefully place food on plate or in bowl

Happy eating
